The information, inspiration, and tools we need to jump-start a clean energy future

Coming Clean is the debut book from Michael Brune, Executive Director of Rainforest Action Network.

Coming Clean sets its sights on identifying ways that Americans can work together to break our addiction to oil and coal. The book was inspired by two notions: that as a society we possess practical and attractive alternatives to traditional fossil fuels, and that as individuals we possess the ability to unite and work together to improve each other's lives.
